

ABSTRACT OF THE DISCLOSURE

A terminal control apparatus1 for causing various terminal devices to perform appropriate operations. The terminal control apparatus comprises a communication section 11, a control section 12, and a data-storing section 13. The communication section 11 accomplishes communication with a terminal device 2. The control section 12 controls the terminal device 2. The terminal device 3 comprises a communication section 21, a control section 22, and a terminal section 23. The communication section 21 achieves communication with the terminal control apparatus 1. The control section 22 transmits terminal information to the terminal control apparatus 1. The terminal information represents the type and capacity of the terminal device 2. The terminal control apparatus 1 performs terminal control functions in accordance with the terminal information. The control section 22 controls the terminal section 23 in accordance with the terminal control functions the apparatus 1 has performed. Thus controlled, the terminal section 23 carries out prescribed terminal functions.
